Istanbul... In addition to its prime geopolitical location between the East and West, it is Turkey's most important city culturally and economically. Selected as the European Capital of Culture in 2010, Istanbul is among the largest cities of Europe, with a population of over 14 million residents with more than 10 million visitors come to Istanbul every year. TAV provides service at the most important point of passage of this metropolis, Istanbul Atatürk Airport. Having grown to become one of the world's most important transfer hubs, Istanbul Atatürk Airport, because of its geographic location and exceptional service quality, has now become not only the largest airport in Turkey, but also one of the most popular and admired airports in Europe. Today, flights are launched from Atatürk Airport to 276 destinations in 110 countries with 128 airline companies worldwide. Passenger satisfaction is our top priority at Atatürk Airport, which now serves nearly 60,000,000 passengers per year. Experiencing explosive growth within a short period of time, Istanbul Atatürk Airport is now Europe's 4th largest and the world's 13th largest airport. Istanbul Atatürk Airport is like a small city, serving more than 1,300 aircraft and 160,000 passengers daily.

TAV Airports continues to improve the variety and quality of the services it provides and to offer passengers a reliable, fast and comfortable travel experience at Atatürk Airport, which has secured a position for itself amongst the leaders of the aviation industry as a result of continual investment.

TAV Airports' sustainable approach to all its operations minimizes the environmental impact of the operational activities at Atatürk Airport whilst enabling the regular improvement of services and introduction of new, innovative services to meet the wide variety of passenger requirements. As one of the most prominent airport operators in the world, TAV Airports will continue to apply its innovative approach gained from an increasingly globalized world to its operations in order to maintain the highest level of passenger satisfaction.

TAV IN BRIEF

TAV Airports is a success story built on the accumulation of knowledge, experience and creativity gained in airport operations, one of world's most challenging sectors. TAV's history started in 1997 with the tender for Istanbul Atatürk Airport International Terminal. TAV Airports Holding was established as a joint venture between the Tepe and Akfen Groups, who won the tender. Having grown to become a great success story within a very short period of time, TAV soon became a global brand in airport operations and construction thanks to its know-how, highly skilled human resources and advanced technology. Having gone through a restructuring process in 2006 in line with its goals, TAV re-organized its operational activities under TAV Airports Holding and construction activities under TAV Construction. Following this restructuring process, TAV Airports Holding had its initial public offering in February 2007. In May 2012, 38 percent of TAV Airports' shares were sold to Aéroports de Paris.

Today, TAV Airports, Turkey's global brand in airport operations, operates Istanbul Atatürk, Ankara Esenboga, Izmir Adnan Menderes, Milas-Bodrum and Gazipasa-Alanya Airports in Turkey, Tbilisi and Batumi Airports in Georgia, Monastir and Enfidha-Hammamet Airports in Tunisia, Skopje and Ohrid Airports in Macedonia, Medinah Airport in Saudi Arabia and Zagreb Airport in Croatia are also operated by TAV Airports. In addition to airport operations, the holding also operates, through its affiliates and subsidiaries, in auxiliary airport services including duty-free, food and beverage, ground handling services, IT, security and operation services. As part of these diversified services TAV Airports also operates the duty-free, food and beverage and other commercial areas at Riga Airport in Latvia. In 2015, the company provided services for 780,000 flights and more than 102 million passengers.

TAX-FREE

There are three Tax-Free processing offices and four tax return offices on the International Departures Floor. Tax-Free processing offices are situated at the counters A15-16 and D31-32 before the passport control and at the gate 219 after the passport control.
